

ECHOWEAR® Body Art™ Stencils will take you to another level as a professional makeup artist. Use them for face and body painting, or anywhere else you can think of. Clothing, furniture or interior decoration, cars and motorcycles... The only limit is your imagination.

Stencils are sized to match US "Letter" paper format. With optional holes, you can use standard binders to organize your collection.

The non-adhesive plastic stencils include one stencil with four designs per package and are reusable indefinitely. Wipe gently with mild soapy water or makeup remover.

Have a need for a custom size? Let us know and we will quote you a reasonable price.

Usage notes:

Do not brush or scrub, to prevent tearing of intricate design details.

When using multiple stencils and painting layers for a given area, ensure that each application is dry before allowing contact with next stencil, to prevent smearing.
